# JASON KRISTIANO

**m** Ph.D. Student in Theoretical Physics.

jkristiano@resceu.s.u-tokyo.ac.jp

### RESEARCH INTEREST

Quantum field theory of fluctuations generated during cosmic inflation.

Keywords: Cosmic Inflation, Cosmological Perturbations, Quantum Field Theory in Curved Spacetime, Cosmological Bootstrap, and Primordial Black Holes.

### Personal

• Year of Birth: 1997.

• Place of Birth: Jakarta, Indonesia.

Nationality: Indonesia.Pronoun: He/Him/His.

• Language: Indonesian (Native), English (CEFR C1), and Japanese (Passed N3).

#### EDUCATION

### Department of Physics, The University of Tokyo

2021/10-

- Doctor of Philosophy (Ph.D.) Student.
- Advisor: Prof. Jun'ichi Yokoyama.
- Support: JSPS DC1 Fellowship and GSGC Scholarship (Partial).

### Department of Physics, The University of Tokyo

2019/09-2021/09

- Master of Science (M.Sc.).
- Advisor: Prof. Jun'ichi Yokoyama.
- Thesis: Theoretical bound on primordial non-Gaussianity in single-field inflation.
- Support: MEXT Scholarship and GSGC Scholarship (Inactive).

#### Department of Physics, Universitas Indonesia

2015/08 - 2018/08

- Bachelor of Science (S.Si.).
- Advisor: Prof. Terry Mart.
- Thesis: Pure spin-3/2 representation for use in particle and nuclear physics.
- Support: Indonesia International Science Olympiad Scholarship.

#### Career

Research Fellow 2022/04-

• JSPS DC1 Fellowship, The University of Tokyo, Japan.

- Supervisor: Prof. Jun'ichi Yokoyama.
- Grant: 2,500,000 JPY for 3 years.
- Project: Cosmological correlators as a probe of fundamental physics.

## Research Assistant (Internship)

2019/04-2019/06

- IBM T. J. Watson Research Center, New York, United States.
- Supervisor: Dr. Oki Gunawan.
- Project: Theoretical aspect of magnetic trap system.

# Publication and Preprint

- 6. <u>J. Kristiano</u> and J. Yokoyama, *Perturbative region on non-Gaussian parameter space in single-field inflation*, Journal of Cosmology and Astroparticle Physics **07** (2022) 007 [arXiv:2204.05202].
- 5. <u>J. Kristiano</u> and J. Yokoyama, *Why Must Primordial Non-Gaussianity Be Very Small?*, Physical Review Letters **128**, 061301 (2022) [arXiv:2104.01953].
- 4. O. Gunawan, <u>J. Kristiano</u>, and H. Kwee, *Magnetic-tip trap system*, Physical Review Research **2**, 013359 (2020) [arXiv:1906.05680].

- 2. T. Mart, <u>J. Kristiano</u>, and S. Clymton, *Pure spin-3/2 representation with consistent interactions*, Physical Review C **100**, 035207 (2019) [arXiv:1909.04282].
- 1. <u>J. Kristiano</u>, S. Clymton, and T. Mart., *Pure spin-3/2 propagator for use in particle and nuclear physics*, Physical Review C (Rapid Communication) **96**, 052201 (2017) [arXiv:1710.07930].

### Conference

#### Oral Talk

- 11. One-loop perturbativity bound in single-field inflation, The 31th Workshop on General Relativity and Gravitation in Japan (JGRG), The University of Tokyo, Japan, October 2022.
- 10. One-loop perturbativity bound in single-field inflation, The 26th International Summer Institute on Phenomenology of Elementary Particle Physics and Cosmology, Fuji-Yoshida, Japan, September 2022.
- 9. Perturbative region on non-Gaussian parameter space in single-field inflation, The 78th Physical Society of Japan (JPS) Meeting, Okayama University of Science, Japan, September 2022.
- 8. Perturbative region on non-Gaussian parameter space in single-field inflation, The 15th Asia-Pacific Physics Conference (APPC), South Korea, August 2022 (Online).
- 7. Theoretical bound on primordial non-Gaussianity in single-field inflation, The 77th Physical Society of Japan (JPS) Meeting, Japan, March 2022 (Online).
- 6. Theoretical bound on primordial non-Gaussianity in single-field inflation, The 30th Workshop on General Relativity and Gravitation in Japan (JGRG), Waseda University, Japan, December 2021 (Online).
- 5. Theoretical bound on primordial non-Gaussianity in single-field inflation, Recent Progress of Quantum Cosmology (YITP Workshop), Kyoto University, Japan, November 2021 (Online).
- Coleman-de Luccia tunneling wave function, The 14th Asia-Pacific Physics Conference (APPC), Kuching, Malaysia, November 2019.

- 3. Coleman-de Luccia tunneling wave function, Conference on Theoretical Physics and Nonlinear Phenomena (CTPNP), Makasar, Indonesia, July 2018.
- 2. Path integral quantization of an interacting pure spin-3/2 field, The 4th International Symposium on Current Progress in Mathematics and Sciences (ISCPMS), Depok, Indonesia, July 2018.
- 1. Massive particle spin-3/2 propagator, The 3rd International Symposium on Current Progress in Mathematics and Sciences (ISCPMS), Bali, Indonesia, July 2017.

### Poster Presentation

- 2. Theoretical bound on primordial non-Gaussianity in single-field inflation, The 24th International Conference on Particle Physics and Cosmology (COSMO), University of Illinois, United States, August 2021 (Online).
- 1. Pure spin-3/2 propagator for use in particle and nuclear physics, The 8th International Conference on Quark and Nuclear Physics (QNP), Tsukuba, Japan, November 2018.

## TEACHING EXPERIENCE

- Lab Assistant, Advanced Physics Laboratory, Universitas Indonesia (Second Half of 2017, First Half of 2018, and Second Half of 2018).
- Teaching Assistant, Mathematical Physics 1, Universitas Indonesia (First Half of 2017).

## Award

- Graduated cum laude (GPA: 3.96/4, the highest over all bachelor graduates) from Universitas Indonesia.
- Bronze Medal, International Physics Olympiad (IPhO) 2015 in Mumbai, India.
- Honorable Mention, Asian Physics Olympiad (APhO) 2015 in Hangzhou, China.
